

SHARDA HOMEOPATHY CLINIC — FULL WEBSITE BUILD PROMPT

For: Antigravity | Client: Dr. Sharda Tawale | Project Lead: InnoVision

PROJECT OVERVIEW

Build a **complete, production-ready, SEO-optimized website** for **Sharda Homeopathy Clinic** operated by **Dr. Sharda Tawale**, located in **Aurangabad, Maharashtra, India**.

Key Mandates

- **NOT AI-generated looking** — handcrafted, warm, human feel
- **Homeopathy theme** — floating globule pellet animations, botanical elements, nature motifs
- **Surpass reference sites:** [drbatras.com](#) and [drsudeshnasaha.in](#) in design quality and interactivity
- **Mobile-first** — majority of patients visit on phones
- **100% Free services only** — Vercel, Supabase, Resend free tiers
- **Vercel deployment ready** — no build errors, optimized for production
- **English only language**

TECH STACK (EXACT VERSIONS)

Layer	Technology
Framework	Next.js 14+ (App Router, TypeScript)
Styling	Tailwind CSS v3 + custom CSS
Animations	Framer Motion v11
UI Components	Shadcn/UI
Icons	Lucide React
Forms	React Hook Form v7 + Zod v3
Database	Supabase (free tier)
Email	Resend (free tier — 3000 emails/month)
Sitemap	next-sitemap

Layer	Technology
Fonts	Playfair Display + Inter (next/font/google)
Images	Next.js <code><Image /></code> component
Deployment	Vercel

`package.json` — Key Dependencies

```
json
{

  }
}
```

Color Palette (Tailwind + CSS Variables)

```
CSS

:root {
  --color-primary:           #1B5E35;    /* Deep Forest Green */
  --color-primary-light:     #2E7D50;    /* Medium Forest Green */
  --color-primary-dark:      #0F3D22;    /* Dark Forest Green */
  --color-secondary:         #C9A84C;    /* Warm Gold */
  --color-secondary-light:   #E8C96D;    /* Light Gold */
  --color-accent:            #7FB069;    /* Sage Green */
  --color-bg:                #FAF8F3;    /* Cream Ivory */
  --color-bg-alt:            #F0EDE4;    /* Slightly Darker Cream */
  --color-text:              #1A1A2E;    /* Dark Charcoal */
  --color-text-muted:        #5A5A72;    /* Muted Text */
  --color-white:             #FFFFFF;
  --color-globule:           rgba(232, 245, 233, 0.6); /* Pellet glow */
  --color-error:             #DC2626;
  --color-success:           #16A34A;
}
```

tailwind.config.ts — extend with these custom colors under `theme.extend.colors`:

```
ts

primary: { DEFAULT: '#1B5E35', light: '#2E7D50', dark: '#0F3D22' },
secondary: { DEFAULT: '#C9A84C', light: '#E8C96D' },
accent: '#7FB069',
cream: { DEFAULT: '#FAF8F3', alt: '#F0EDE4' },
```

Typography

Element	Font	Weight	Size
H1	Playfair Display	700	3.5rem-4.5rem
H2	Playfair Display	600	2.25rem-3rem
H3	Playfair Display	600	1.5rem-2rem
H4	Inter	600	1.25rem
Body	Inter	400	1rem
Small	Inter	400	0.875rem

Element	Font	Weight	Size
CTA/Button	Inter	600	0.9rem

Load fonts via `next/font/google` with `display: 'swap'` and `subsets: ['latin']`.

🌟 ANIMATIONS & THEME ELEMENTS

1. Floating Globule Particles Component (`FloatingGlobules.tsx`)

Create a **reusable background component** that renders animated homeopathic pellet/globule dots:

```
tsx

// Usage: <FloatingGlobules count={20} opacity={0.3} />
// - Renders 15-25 small circles (4px-14px diameter)
// - Colors: translucent white, soft green (#E8F5E9), faint gold (#FFF9E6)
// - Animation: float upward with slow drift (CSS keyframes, not JS)
// - Random: initial position, size, animation duration (6s-14s), delay
// - Should NOT cause layout shift or affect performance
// - Use position: absolute, pointer-events: none, overflow: hidden on parent
// - Keyframe: translateY(0) → translateY(-110vh) with slight X oscillation
```

CSS keyframe:

```
CSS

@keyframes floatUp {
  0% { transform: translateY(0px) translateX(0px); opacity: 0; }
  10% { opacity: var(--opacity); }
  50% { transform: translateY(-50vh) translateX(15px); }
  90% { opacity: var(--opacity); }
  100% { transform: translateY(-110vh) translateX(-5px); opacity: 0; }
}
```

Use on: Hero section, About section, Doctor Video section, CTA strip.

2. Scroll Reveal Wrapper (`ScrollReveal.tsx`)

Wrap sections in this component for enter animations:

```
tsx
```

```
// Props: children, delay (0-0.5), direction ('up' | 'left' | 'right')
// Uses Framer Motion whileInView, once: true
// initial: { opacity: 0, y: 40 } → animate: { opacity: 1, y: 0 }
// transition: { duration: 0.7, ease: "easeOut", delay }
```

3. Animated Counter ((CounterAnimation.tsx))

```
tsx

// Props: target (number), suffix (string like '+' or '%'), duration (ms)
// Counts from 0 → target when enters viewport
// Uses requestAnimationFrame + react-intersection-observer
// Easing: easeOutQuart
```

4. Loading Screen ((LoadingScreen.tsx))

Full-viewport overlay shown for **2.2 seconds** on first load:

- Background: (■ #0F3D22) (dark forest green)
- Center: SVG animation of a glass homeopathy bottle with 8-10 small circles (pellets) dropping into it one by one
- Below bottle: "Sharda Homeopathy" in Playfair Display, white, fading in at 0.8s
- Sub-text: "Healing Naturally Since..." fading in at 1.2s
- Full screen fades out + slides up at 2.2s
- State managed in (layout.tsx), shown only once per session (sessionStorage flag)

5. Page Transitions

Use Framer Motion (AnimatePresence) + (motion.div) wrapper in layout.tsx:

```
tsx

// Each page: initial={{ opacity: 0, y: 10 }} → animate={{ opacity: 1, y: 0 }} → exit
// duration: 0.35s
```

6. Micro-interactions (apply globally)

- Buttons: (hover:scale-105 active:scale-95 transition-transform duration-200)
- Cards: (hover:-translate-y-2 hover:shadow-xl transition-all duration-300)
- Nav links: animated underline draw from left on hover (CSS pseudo-element (::after))
- Input fields: border color transitions to primary green on focus

7. Botanical SVG Decorators

Create (BotanicalDecor.tsx) — exports 3-4 SVG shapes (leaf, branch, herb sprig) used as

decorative corner/edge elements. Soft sage green ( #7FB069), 15-25% opacity. Used in: About section, Why Homeopathy section, Footer.

📄 PAGE-BY-PAGE SPECIFICATIONS

HOME PAGE (/)

Section 1: Hero

- **Full viewport height** (`min-h-screen`)
- **Background:** Deep forest green gradient (`#1B5E35` → `#0F3D22`) + `FloatingGlobules` overlay (count=20, low opacity)
- **Layout:** Two-column on desktop (text left, visual right), stacked on mobile
- **Left column:**
 - Eyebrow pill badge: `"🌿 Trusted Homeopathic Care"` — green border, white text, small font
 - H1 (white, Playfair): `"Heal Naturally. Live Completely."`
 - Sub-headline (white/80%, Inter): `"Expert homeopathic care for 100+ conditions by Dr. Sharda Tawale, Aurangabad. Safe, natural, and lasting results."`
 - Two CTA buttons:
 - **Primary:** `"Book Appointment"` — gold bg (`#C9A84C`), dark text, rounded-full, hover scale
 - **Ghost:** `"Explore Treatments"` — white border, white text, rounded-full
 - Trust badges row: `"⭐ 4.9/5"` | `"2000+ Patients"` | `"15+ Years"`
- **Right column:** Large circular/rounded-rect image (Dr. Sharda placeholder) with a decorative green ring border and scattered globule dots around it
- **Bottom:** Gold curved SVG wave separator transitioning to cream bg
- **Scroll indicator:** Animated bouncing arrow

Section 2: Trust Bar

- **Bg:** Cream (`#FAF8F3`), full width, padded
- **4 animated stat cards** separated by gold vertical dividers (`h-12 w-px bg-secondary/30`):
 - `"🌿 2000+ — Patients Healed"`

-  15+ — Years of Experience
-  100+ — Diseases Treated
-  4.9/5 — Patient Rating
- `CounterAnimation` triggers when section enters viewport
- Numbers in Playfair Display, large (3rem), gold color; labels in Inter, smaller, muted

Section 3: About Preview

- **Bg:** White
- **Two-column layout** (reversed on mobile — image above text)
- **Left:** Doctor's photo in a rounded-2xl frame with a decorative green circle/ring + scattered small pellet dots. Green badge overlay: `"BHMS, MD Homeopathy"`. `BotanicalDecor` SVG in bottom-left corner.
- **Right:**
 - Eyebrow: `"Meet Your Healer"`
 - H2: `"Dr. Sharda Tawale"`
 - Bio paragraph (3-4 sentences about experience, approach, compassionate care)
 - Credentials list with green checkmark icons: BHMS from [University], MD Homeopathy, 15 Years Practice, 2000+ Patients Treated, Member of [Association]
 - CTA: `"Full Profile & Vision →"` (text link with arrow)
- `ScrollReveal` with `direction='left'` on the image, `direction='right'` on the text

Section 4: Why Homeopathy

- **Bg:** Cream alt (`□ #F0EDE4`)
- **SectionHeading:** `"Why Choose Homeopathy?"` centered
- Sub-text: `"A gentle, holistic system of medicine that heals from within"`
- **6-card grid** (3×2 desktop, 2×3 tablet, 1×6 mobile):
 1.  No Side Effects
 2.  Treats Root Cause
 3.  Safe for All Ages (infants to elderly)
 4.  Holistic Healing (mind + body + spirit)
 5.  Long-Lasting Results
 6.  Affordable Treatment
- Each card:
 - Animated SVG icon (Lucide or custom, green color)
 - Card title (H4, Inter 600)
 - 2-line description
 - Hover: card lifts 8px + green left-border appears + subtle shadow
- `ScrollReveal` staggered (each card 0.1s delay increment)

Section 5: Disease Widgets (Interactive)

- **Bg:** Primary dark green ( #0F3D22)
- **SectionHeading:** "Conditions We Treat" — white text, gold underline
- **Sub-text:** "Click on any condition to learn how homeopathy can help" — white/70%
- **Category filter tabs** (pill-shaped buttons): All | Skin | Respiratory | Digestive | Joint & Bone | Children | Women's Health | Lifestyle
 - Active tab: gold bg, dark text; Inactive: white/20% border, white text
 - Tab click: Framer Motion `AnimatePresence` filters the grid below
- **Disease cards grid** (4 columns desktop, 3 tablet, 2 mobile):
 - Card: white/5% bg (semi-transparent on dark green), rounded-2xl, border white/10%
 - Icon (emoji or SVG), disease name (white, Inter 600), short 1-line desc (white/60%)
 - Hover: card bg becomes white/15%, border becomes gold, cursor pointer
 - Click → navigate to `/treatments/[slug]`
- **24 diseases** across categories:
 - **Skin (5):** Psoriasis, Eczema, Acne, Vitiligo, Urticaria
 - **Respiratory (4):** Asthma, Allergic Rhinitis, Sinusitis, Tonsillitis
 - **Digestive (4):** IBS, Gastritis, Constipation, Piles & Fissure
 - **Joint & Bone (4):** Arthritis, Back Pain, Sciatica, Gout
 - **Children (4):** Bedwetting, Recurrent Colds & Infections, ADHD, Growth Issues
 - **Women's Health (4):** PCOD / PCOS, Thyroid Disorders, Infertility, Menstrual Disorders
 - **Lifestyle (4):** Diabetes (Management), Hypertension, Migraine, Hair Fall
- **Bottom CTA:** "View All Treatments →" — gold button → `/treatments`

Section 6: How It Works

- **Bg:** White
- **SectionHeading:** "Your Healing Journey"
- **3-step horizontal timeline** (desktop) / vertical (mobile):
 - **Step 1:**  Book Consultation — "Choose online or in-person, pick a slot that suits you"
 - **Step 2:**  Deep Case Analysis — "Dr. Sharda studies your complete health history and constitution"
 - **Step 3:**  Personalized Treatment — "Receive custom homeopathic remedies tailored just for you"
- Connecting animated line between steps (CSS animation: draws from left to right on scroll)
- Each step: numbered circle (gold bg), icon, title, description

Section 7: Before & After Cases

- **Bg:** Dark green gradient
- **SectionHeading:** "Real Results, Real People" — white
- **Disclaimer pill:** "Results may vary. All identities are anonymized." — small, white/60%
- **Embla Carousel** — 5-6 case cards:
 - Each card: white bg, rounded-2xl, shadow-xl
 - Two-panel: Before | After (side-by-side images with labels)
 - Below images: Condition name (H4, green), Patient brief (anonymous), Duration of treatment, Result text
 - Use placeholder images from `(picsum.photos)` — skin, hair, face condition categories
- **Navigation:** prev/next arrow buttons (gold) + dot indicators
- `(autoplay)` with 5s interval, pause on hover

Section 8: Doctor's Vision Video

- **Bg:** Cream
- **Two-column layout** (video left, quote right)
- **Left:** YouTube facade pattern:
 - Show thumbnail image with a large play button overlay
 - On click: swap `<img>` with `<iframe src="youtube-url?autoplay=1">` — avoids CWV penalty
 - Rounded-2xl, shadow-xl
 - Placeholder: use a relevant homeopathy explainer video until real video is provided (`(https://www.youtube.com/embed/qGRbJKKcuMg)`)
- **Right:**
 - Green decorative quote SVG (large `("` mark)
 - H3: `( "A Message from Dr. Sharda"`
 - Pull quote text (italic, Playfair): `( "Homeopathy does not just cure diseases – it transforms lives by treating the whole person, not just the symptoms. My mission is to bring this gentle healing to every family in Aurangabad."`
 - Signature-style name rendering: `(Dr. Sharda Tawale)` in a cursive-like Playfair style with a green underline
 - `(BotanicalDecor)` SVG in corner

Section 9: Testimonials Carousel

- **Bg:** `(#F0EDE4)` (cream alt)
- **SectionHeading:** `( "Voices of Healing"` centered
- **Auto-scroll Embla Carousel** — 6 cards visible on desktop, 2 tablet, 1 mobile:

- Card: white bg, rounded-2xl, border green/10%, padding
- 5-star rating (gold stars, SVG)
- Review text (italic, 3-4 lines, clamped with expand on hover)
- Patient name (Inter 600, green)
- Condition treated (Inter 400, muted)
- Initials avatar circle (green bg, white text)
- Auto-scrolls every 3.5s, pause on hover/focus
- Bottom: `"Read All Reviews →"` → `/testimonials`

Section 10: Consultation Info

- **Bg:** White
- **SectionHeading:** `"Book Your Consultation"`
- **Two-column card layout:**
 - **Card 1** — 🏠 In-Person Consultation:
 - Forest green header bg, white text
 - Address: [Clinic Address, Aurangabad]
 - Hours: Monday - Saturday, 10:00 AM - 2:00 PM & 5:00 PM - 8:00 PM
 - Sunday: Closed
 - "Get Directions →" opens Google Maps
 - CTA Button (gold): `"Book In-Person"`
 - **Card 2** — 💻 Online Consultation:
 - Gold header bg, dark text
 - Available for patients across Maharashtra and India
 - Via WhatsApp/Video Call
 - CTA Button (green): `"Book Online"`
- Below cards: `"First consultation includes complete case history & lifestyle assessment"` — small green italic note

Section 11: Blog Preview

- **Bg:** Cream
- **SectionHeading:** `"From Our Health Blog"`
- **3 latest articles** — horizontal card grid:
 - Card: white bg, rounded-2xl, shadow on hover
 - Category tag (pill, green), article title, 2-line excerpt, author chip, read time, `"Read Article →"`
 - Hover: slight image zoom (overflow hidden + `scale-105`)
- CTA: `"View All Articles →"` → `/blog`

Section 12: FAQ Teaser

- **Bg:** White
- **5 FAQs** in Shadcn/UI Accordion, forest green trigger color
- **CTA:** "See All FAQs →" → /faq

Section 13: CTA Strip

- **Bg:** Primary green gradient with a diagonal gold accent stripe (CSS clip-path)
- FloatingGlobules overlay (low opacity)
- **H2** (white, Playfair): "Ready to Begin Your Healing Journey?"
- **Sub-text** (white/80%): "Join 2000+ patients who have found lasting relief through homeopathy"
- **3 buttons** (centered row):
 - "📅 Book Appointment" — gold bg
 - "💬 Chat on WhatsApp" — white bg, green text — links to wa.me/91XXXXXXXXXX
 - "📞 Call Now" — ghost white border

NAVBAR (components/layout/Navbar.tsx)

Structure:

```
[Top Bar - green bg]
  📞 +91-XXXXXXXXXX | 📍 Aurangabad, Maharashtra | 🕒 Mon-Sat: 10AM-8PM
[Main Navbar - white bg on scroll, transparent on hero]
  [Logo: leaf icon + "Sharda Homeopathy" in Playfair]
  [Nav Links: Home | About | Treatments | Blog | Testimonials | Gallery | Contact]
  [CTA: "Book Appointment" - gold pill button]
  [Mobile: Hamburger → full-overlay menu]
```

Behavior:

- position: sticky, top: 0, z-index: 50
 - On scroll > 50px: add white bg + shadow-md + hide top bar (smooth transition)
 - Active link: green color + gold dot indicator below
 - Hamburger (mobile): opens full-screen dark green overlay with staggered link animations (Framer Motion)
 - Dropdown on "Treatments" nav link showing disease categories
-

FOOTER ((components/layout/Footer.tsx))

[Logo + tagline: "Healing through Nature, Guided by Science"]
[4-column grid:]
Col 1: About the clinic (brief)
Col 2: Quick Links (Home, About, Treatments, Blog, FAQs)
Col 3: Treatments (top 6 with links)
Col 4: Contact (address, phone, email, hours)
[Social icons: Instagram, Facebook, YouTube, WhatsApp]
[Bottom bar: "© 2025 Sharda Homeopathy Clinic · Privacy Policy · Terms · Made with  in Aurangabad"]

ABOUT PAGE ((/about))

1. **Hero Banner:** Full-width, green bg, Dr. Sharda's image + name + credential overlay
2. **Biography Section:** Detailed 3-4 paragraph bio about her journey, philosophy, and vision
3. **Education Timeline:** Vertical timeline component:
 - BHMS — [College Name], [Year]
 - MD (Homeopathy) — [Institution], [Year]
 - Started Sharda Homeopathy Clinic — Aurangabad, [Year]
4. **Philosophy Section:** H3 "Dr. Sharda's Vision" + 2-column quote + paragraph. FloatingGlobules bg.
5. **Credentials & Memberships:** Badge grid (icons + text)
6. **Achievements:** List with trophy/award icons
7. **Clinic Gallery Preview:** 4-image grid → link to (/gallery)
8. **CTA:** Book Appointment strip

TREATMENTS PAGE ((/treatments))

1. **Hero:** Green bg, "Conditions We Treat" heading
2. **Full disease widget grid** (same as home section 5, but expanded — all diseases shown, no truncation)
3. Each treatment card links to (/treatments/[slug])

TREATMENT DETAIL PAGE ((/treatments/[slug]))

Dynamic page, data from (data/treatments.ts):

1. **Breadcrumb:** Home → Treatments → [Disease Name]
2. **Hero section:** Disease name, short tagline, "Book Appointment for [Disease]" CTA

3. **Overview:** 2-3 paragraphs explaining the condition
4. **Symptoms:** Icon + text list (green checkmark bullets)
5. **Causes:** Icon + text list
6. **How Homeopathy Helps:** Key explanation section (box with green bg, white text)
7. **Dr. Sharda's Approach:** 1-2 paragraphs, personal note
8. **Related Testimonials:** 2-3 filtered reviews for that condition
9. **Related Conditions:** 4-6 cards at bottom
10. **Sticky Sidebar** (desktop): Quick booking widget — "Consult for [Disease]" with name + phone + submit → `/appointment`

`generateStaticParams()` — pre-render all treatment slugs at build time. `generateMetadata()` — unique title, description, keywords per disease.

APPOINTMENT PAGE (`/appointment`)

Mode Toggle (top of form)

[ In-Person Consultation] [ Online Consultation]

- Animated pill toggle, selected mode gets green bg
- URL param sync: `/appointment?mode=online` or `/appointment?mode=in-person`
- `useSearchParams()` to read initial mode

Form Fields

City	text	only if Online	min 2 chars
Chief Complaint	select + Other	✓	dropdown of all 24 diseases + "Other"
Preferred Date	date	✓	disable past dates + Sundays
Preferred Time Slot	select	✓	9-11AM / 11AM-1PM / 3-5PM / 5-7PM
Consultation Mode	hidden/auto	—	from toggle
Additional Message	textarea	✗	max 500 chars
How did you hear about us?	select	✗	Google / Friend / Social Media / Other

On Submit Flow

1. React Hook Form validates with Zod schema
2. Loading spinner shown on submit button
3. `POST /api/appointment` with form data
4. API route:
 - Validates server-side
 - `INSERT` into Supabase `appointments` table
 - Send HTML email to `ADMIN_EMAIL` via Resend (see email template below)
 - Send confirmation email to patient if email provided
5. Show **Success State**:
 - Animated checkmark (Framer Motion)
 - `"✓ Request Received!"`
 - `"Dr. Sharda's team will call you at [phone] within 24 working hours to confirm your appointment."`
 - `"Questions? Chat on WhatsApp →"` button
 - `"← Book Another Appointment"` link

Supabase SQL — **appointments** table

```
sql

create table public.appointments (
  id uuid default gen_random_uuid() primary key,
  created_at timestamptz default now() not null,
  name text not null,
  phone text not null,
  email text,
  age integer,
  gender text,
  city text,
  condition text not null,
  preferred_date date,
  preferred_time text,
  consultation_mode text not null check (consultation_mode in ('in-person', 'online')),
  message text,
  referral_source text,
  status text default 'pending' check (status in ('pending', 'confirmed', 'cancelled')),
);

-- Enable Row Level Security
alter table public.appointments enable row level security;

-- Only service role can read/write (API route uses service key)
create policy "Service role full access" on public.appointments
  using (true) with check (true);
```

Supabase SQL — **contacts** table

```
sql

create table public.contacts (
  id uuid default gen_random_uuid() primary key,
  created_at timestamptz default now() not null,
  name text not null,
  email text not null,
  phone text,
  message text not null
);

alter table public.contacts enable row level security;
```

Admin Email Template (HTML)

Rich HTML email sent to receptionist via Resend:

- Subject: 🌿 New [Online/In-Person] Appointment – {name} | {date}
 - Green-header email with clinic logo
 - Clean table with all patient details
 - Colored badge for mode (Online = gold, In-Person = green)
 - "📞 Call Patient" button (tel: link)
 - "💬 WhatsApp Patient" button (wa.me link)
 - Reply-To: patient's email
-

CONTACT PAGE (/contact)

1. **Hero:** "Get In Touch" — green bg
 2. **Two-column layout:**
 - **Left:** Contact form (Name, Email, Phone, Message) — POST /api/contact → Supabase + Resend to admin
 - **Right:**
 - Address card with Google Maps iframe embed (free, no API key needed for basic embed)
 - Phone + WhatsApp button
 - Clinic hours table
 - Social media icons
 3. WhatsApp button uses https://wa.me/91XXXXXXXXXX?text=Hello%20Dr.%20Sharda%20I%20would%20like%20to%20enquire%20about...
-

TESTIMONIALS PAGE (/testimonials)

1. **Hero:** "Voices of Healing" — green bg with floating globules
 2. **Filter tabs:** All | Skin | Respiratory | Digestive | Joint | Women's Health | Others
 3. **Reviews grid** (3 col desktop, 2 tablet, 1 mobile) — 20+ cards
 4. **Video Testimonials section:** 3-4 YouTube embeds (facade pattern), lazy load
 5. **Before & After Gallery:**
 - Grid of image pairs
 - react-photo-view lightbox on click
 - Condition label + disclaimer
 6. **"Share Your Story" CTA** → /contact with pre-filled message
-

BLOG PAGE (`/blog`)

1. **Hero:** `"Health & Healing Blog"` — green bg
2. **Category filter + search bar** (client-side filter on `data/blog.ts`)
3. **Article grid:** 6 per page, pagination
4. Each card: category tag, title, excerpt (2-line clamp), author, read time, date, `"Read Article >"`

BLOG POST PAGE (`/blog/[slug]`)

1. **Breadcrumb**
2. **Article header:** Category, Title, Author (Dr. Sharda), Date, Read time, Share buttons
3. **Featured image**
4. **Article body** (formatted Markdown-like content from `data/blog.ts`)
5. **Table of Contents** — sticky sidebar on desktop (JS scroll-spy)
6. **Author card** at bottom
7. **Related articles** (3 cards)
8. **Social share** (WhatsApp, Facebook, X/Twitter — pure href links, no external trackers)
9. **Article JSON-LD** schema per post

`generateStaticParams()` — pre-render all blog slugs. `generateMetadata()` — unique per article.

GALLERY PAGE (`/gallery`)

1. **Hero:** `"Clinic Gallery"` — green bg
 2. **Category filter:** All | Clinic | Events & Awards | Before & After | Community
 3. **Masonry image grid** (CSS columns trick or CSS grid)
 4. `react-photo-view` lightbox on click
 5. Use `picsum.photos` placeholders until real images provided
-

FAQ PAGE (`/faq`)

1. **Hero:** `"Frequently Asked Questions"` — green bg
2. **Search bar** (client-side filter)
3. **Categorized Accordion:**
 - **General:** What is homeopathy? Is it safe? How long does treatment take? etc.
 - **Appointment:** How do I book? Can I reschedule? What should I bring?
 - **Treatment:** Do I need to stop other medicines? Are there dietary restrictions? etc.

- **Payment:** Consultation fees? Online payment available? Insurance? etc.
4. **25+ FAQs total** across all categories
 5. **FAQPage JSON-LD** schema for all Q&As
 6. **CTA at bottom:** Can't find your answer? → Contact form link + WhatsApp button
-

CHATBOT — "Shuddh" (Rule-Based, 100% Free)

"Shuddh" = Sanskrit/Marathi/Hindi for "Pure" — perfect for a homeopathy clinic.

Visual Design

- **Trigger bubble:** Fixed `bottom-6 right-6 z-50`, 56×56px circle, forest green bg, white chat icon
- **Greeting pill:** Appears after 3s on first visit — `"Hi 🙋 Need help?"` — auto-hides after 5s
- **Chat window:** 380px wide × 500px tall, rounded-2xl, shadow-2xl, white bg
 - **Header:** Green bg, "🌿 Shuddh" left, subtitle "Your Healing Assistant", close button
 - **Message area:** Scrollable, gray bg bot messages, green bg user messages (bubble style)
 - **Typing indicator:** Three bouncing dots before bot response
 - **Input row (bottom):** text input + send button — hidden when showing option buttons
 - **Option buttons:** Pill-shaped buttons below bot message, 2–3 per row max

Chat Flows (`data/chatbotFlows.ts`)

Define as a typed tree. Each node has: `id`, `botMessage`, `options[]`, optional `action`.

typescript

```
// Root menu shown on start
```

```
START: {
```

```
  botMessage: "Hi! I'm Shuddh ✨, your wellness guide at Sharda Homeopathy. How can  
  options: [  
    { label: "📅 Book Appointment", nextId: "APPOINTMENT" },  
    { label: "🔍 Find a Treatment", nextId: "TREATMENT_SEARCH" },  
    { label: "🏠 Clinic Info", nextId: "CLINIC_INFO" },  
    { label: "📞 Contact Doctor", nextId: "CONTACT" },

    { label: "Vitiligo", nextId: "_NAVIGATE", action: { type: "navigate", url: "/tre" } },
    { label: "Urticaria", nextId: "_NAVIGATE", action: { type: "navigate", url: "/tr" } },
    { label: "⬅️ Back", nextId: "TREATMENT_SEARCH" },
  ]
}

// (Repeat for all 7 categories)

CLINIC_INFO: {
  botMessage: "📍 We're located at:\n[Clinic Full Address]\nAurangabad, Maharashtra",
  options: [
    { label: "🗺️ Get Directions", nextId: "_EXTERNAL", action: { type: "external", url: "https://www.google.com/maps/dir/23.032873,72.834217/23.032873,72.834217/" } },
    { label: "📅 Book Appointment", nextId: "APPOINTMENT" },
    { label: "⬅️ Main Menu", nextId: "START" },
  ]
}

CONTACT: {
  botMessage: "How would you like to reach Dr. Sharda?",
  options: [
    { label: "📞 Call Now", nextId: "_PHONE", action: { type: "phone", value: "+91XXXXXXX" } },
    { label: "💬 WhatsApp", nextId: "_WHATSAPP", action: { type: "whatsapp", number: "+91XXXXXXX" } },
    { label: "✉️ Send Message", nextId: "_NAVIGATE", action: { type: "navigate", url: "/contact" } },
    { label: "⬅️ Back", nextId: "START" },
  ]
}

ABOUT_HOMEOPATHY: {
  botMessage: "Homeopathy is a 200-year-old system of natural medicine that stimulates the body's natural healing process.",
  options: [
    { label: "📖 Learn More", nextId: "_NAVIGATE", action: { type: "navigate", url: "/about" } },
    { label: "📅 Book Consultation", nextId: "APPOINTMENT" },
    { label: "⬅️ Main Menu", nextId: "START" },
  ]
}

```

Free-text input: If user types something, do a simple keyword match:

- Contains "book" / "appointment" → jump to `APPOINTMENT`
- Contains "skin" / "psoriasis" / "eczema" → jump to `TREAT_SKIN`
- Contains "contact" / "phone" / "call" → jump to `CONTACT`
- Contains "address" / "location" / "where" → jump to `CLINIC_INFO`
- Default: "I'm not sure I understood that – let me show you the main menu!" → `START`

Session persistence: Save chat history to `sessionStorage` so it persists on page navigation.

SEO CONFIGURATION

Global Layout Metadata (`app/layout.tsx`)

typescript

```
export const metadata: Metadata = {
  metadataBase: new URL('https://shardahomeopathy.com'),
  title: {
    default: 'Sharda Homeopathy Clinic | Dr. Sharda Tawale | Aurangabad',
    template: '%s | Sharda Homeopathy Clinic',
  },
  description: 'Best homeopathic treatment in Aurangabad by Dr. Sharda Tawale. Natural remedies for various ailments.',
  keywords: ['homeopathy clinic aurangabad', 'dr sharda tawale', 'best homeopathy doctor'],
  authors: [{ name: 'Dr. Sharda Tawale' }],
  creator: 'Sharda Homeopathy Clinic',
  robots: { index: true, follow: true, googleBot: { index: true, follow: true } },
  openGraph: {
    type: 'website',
    locale: 'en_IN',
    url: 'https://shardahomeopathy.com',
    siteName: 'Sharda Homeopathy Clinic',
    images: [{ url: '/og-image.jpg', width: 1200, height: 630 }],
  },
  twitter: { card: 'summary_large_image', creator: '@shardahomeopathy' },
};
```

Structured Data JSON-LD (add to `layout.tsx`)

json

```

{
  "@context": "https://schema.org",
  "@graph": [
    {
      "@type": "MedicalBusiness",
      "@id": "https://shardahomeopathy.com/#organization",
      "name": "Sharda Homeopathy Clinic",
      "url": "https://shardahomeopathy.com",
      "logo": "https://shardahomeopathy.com/icons/logo.png",
      "description": "Expert homeopathic treatment in Aurangabad by Dr. Sharda Tawal",
      "medicalSpecialty": "Homeopathic Medicine",
      "telephone": "+91-XXXXXXXXXX",
      "email": "info@shardahomeopathy.com",
      "address": {
        "@type": "PostalAddress",
        "streetAddress": "[Street Address]",
        "addressLocality": "Aurangabad",
        "addressRegion": "Maharashtra",
        "postalCode": "431001",
        "addressCountry": "IN"
      },
      "geo": {
        "@type": "GeoCoordinates",
        "latitude": "[LAT]",
        "longitude": "[LNG]"
      },
      "openingHoursSpecification": [
        { "@type": "OpeningHoursSpecification", "dayOfWeek": ["Monday", "Tuesday", "We
      ],
      "priceRange": "₹₹",
      "sameAs": ["https://facebook.com/shardahomeopathy", "https://instagram.com/sha
    },
    {
      "@type": "Person",
      "@id": "https://shardahomeopathy.com/about#doctor",
      "name": "Dr. Sharda Tawale",
      "jobTitle": "Homeopathic Physician",
      "worksFor": { "@id": "https://shardahomeopathy.com/#organization" },
      "alumniOf": "[College Name]",
      "description": "Expert homeopathic doctor with 15+ years of experience"
    }
  ]
}

```

Also add:

- **FAQPage** schema on `/faq` — each Q&A pair
- **Article** schema on `/blog/[slug]` — title, author, datePublished, image
- **BreadcrumbList** on all inner pages
- **ItemList** on `/treatments` listing all treatment pages

Sitemap (`next-sitemap.config.js`)

javascript

```
/** @type {import('next-sitemap').IConfig} */
module.exports = {
  siteUrl: process.env.SITE_URL || 'https://shardahomeopathy.com',
  generateRobotsTxt: true,
  generateIndexSitemap: false,
  changefreq: 'weekly',
  priority: 0.7,
  exclude: ['/api/*'],
  robotsTxtOptions: {
    policies: [{ userAgent: '*', allow: '/' }],
    additionalSitemaps: ['https://shardahomeopathy.com/sitemap.xml'],
  },
};
```

Run `next-sitemap` in `postbuild` script in `package.json`.

DATA FILES

`data/treatments.ts`

typescript

  { id: 'g3', category: 'general', question: 'How long does homeopathic treatment ta
  // ... (complete 25+ FAQs)
];

```

data/testimonials.ts

20+ realistic (fictional) patient testimonials with: `id`, `name`, `initials`, `condition`, `conditionCategory`, `rating` (4-5), `review`, `date`, `videoUrl?` (optional)

data/blog.ts

6 full-length blog articles with: `slug`, `title`, `category`, `excerpt`, `content` (full HTML-like text), `author`, `date`, `readTime`, `featuredImage`

Sample articles:

1. "Top 5 Homeopathic Remedies for Monsoon Allergies"
2. "PCOD and Homeopathy: A Holistic Approach for Women"
3. "Why Your Child's Recurrent Tonsillitis Needs a Different Kind of Doctor"
4. "Understanding Psoriasis: Triggers, Treatment, and the Homeopathic Way"
5. "Can Homeopathy Cure Arthritis? Real Patient Stories from Aurangabad"
6. "Homeopathy for Stress and Anxiety: Dr. Sharda Explains"

API ROUTES

app/api/appointment/route.ts

typescript

```

import { NextRequest, NextResponse } from 'next/server';
import { createClient } from '@supabase/supabase-js';
import { Resend } from 'resend';
import { z } from 'zod';

const appointmentSchema = z.object({
  name: z.string().min(2),
  phone: z.string().regex(/^[6-9]\d{9}$/),
  email: z.string().email().optional().or(z.literal('')),
  age: z.number().min(1).max(120),
  gender: z.enum(['male', 'female', 'other', 'prefer_not']),
  city: z.string().optional(),
  condition: z.string().min(2),
  preferred_date: z.string().optional(),
  preferred_time: z.string().optional(),
  consultation_mode: z.enum(['in-person', 'online']),
  message: z.string().max(500).optional(),
  referral_source: z.string().optional(),
});

export async function POST(req: NextRequest) {
  try {
    const body = await req.json();
    const data = appointmentSchema.parse(body);

    // 1. Save to Supabase
    const supabase = createClient(
      process.env.NEXT_PUBLIC_SUPABASE_URL!,
      process.env.SUPABASE_SERVICE_KEY!
    );
    const { error: dbError } = await supabase.from('appointments').insert(data);
    if (dbError) throw dbError;

    // 2. Send admin notification email via Resend
    const resend = new Resend(process.env.RESEND_API_KEY);

    await resend.emails.send({

 FREE SERVICES USED — SUMMARY

Service	Purpose	Free Tier
Vercel	Hosting + deployment	Unlimited personal projects
Supabase	Database (appointments + contacts)	500MB DB, 2 free projects
Resend	Email notifications	3000 emails/month, 100/day
Google Maps	Clinic location embed	Free iframe embed (no API key)
WhatsApp wa.me	WhatsApp redirect	Free, no API
YouTube embed	Doctor's video	Free facade embed
Google Fonts	Playfair Display + Inter	Free, via next/font
next-sitemap	SEO sitemap	Free npm package

Zero paid services required.

 WHATSAPP FLOATING BUTTON (`WhatsAppFloating.tsx`)

```
tsx

// Fixed position: bottom-6 right-20 (left of chatbot bubble) z-40
// 52×52px circle, #25D366 green bg, white WhatsApp icon (Lucide or SVG)
// href: https://wa.me/91XXXXXXXXXX?text=Hello%2C%20I%20found%20your%20website%20and
// target="_blank" rel="noopener noreferrer"
// Tooltip on hover: "Chat with us on WhatsApp"
// Pulse animation ring (CSS keyframe) to draw attention
```

COOKIE CONSENT (`CookieConsent.tsx`)

```
tsx

// Fixed bottom-0, full width, white bg, shadow-up
// Text: "We use cookies to improve your experience. By using our site, you agree to
// Buttons: [Accept All] (green) | [Manage Preferences] (ghost) | [X Dismiss]
// State in localStorage: 'cookie_consent' = 'accepted' | 'dismissed'
// Only show if no value in localStorage
// Framer Motion: slide up from bottom on mount, slide down on dismiss
```

RESPONSIVENESS REQUIREMENTS

Breakpoint	Width	Key Layouts
Mobile	375px+	Single column everything. Thumb-friendly CTAs (min 44px). Hamburger nav.
Tablet	768px+	2-column grids. Visible nav.
Desktop	1024px+	Full 3-4 column grids. Sticky sidebar on article/treatment pages.
Wide	1440px+	Max content width: 1280px, centered.

Mobile-specific:

- All CTA buttons: `w-full` on mobile
- Nav: hamburger → full-screen green overlay (100vh)
- Disease widgets: 2 columns
- Chatbot: full width minus padding
- Treatment detail sidebar: moves to bottom on mobile
- Font sizes: slightly smaller (use Tailwind `text-sm` for body on mobile)

ACCESSIBILITY

- All images: meaningful `alt` text (not empty, not "image of...")
- All interactive elements: `aria-label` where text is icon-only
- Color contrast: minimum 4.5:1 (WCAG AA) — test all text on all backgrounds
- Focus rings: visible (Tailwind `focus:ring-2 focus:ring-primary`)
- Form inputs: `<label>` associated with all inputs (htmlFor)
- Headings: proper hierarchy (only one `<h1>` per page)

- Skip to content link (visually hidden, shown on focus)
-

PLACEHOLDER IMAGES

Use these free sources until real clinic images are provided:

- Doctor photos: `(https://images.unsplash.com/photo-1559839734-2b71ea197ec2)`
(professional woman doctor)
- Herbs/nature: `(https://images.unsplash.com/photo-1512069772995-ec65ed45afd6)`
- Clinic interior: `(https://images.unsplash.com/photo-1504439468489-c8920d796a29)`
- General medical: `(https://picsum.photos/800/600?random=[1-20])`
- Before/after: `(https://picsum.photos/400/300?random=[21-30])`

All images via Next.js `<Image />` with proper `(width)`, `(height)`, and `(alt)`.

CRITICAL RULES FOR ANTIGRAVITY

1. **Zero build errors** — project must run `(npm run build)` without any TypeScript, ESLint, or Next.js errors
 2. **No AI-generated stock photo faces** — use nature/herb/abstract images for backgrounds
 3. **No blue color in the design** — only green, gold, cream, white, and dark charcoal
 4. **Floating globule animation MUST be present** on at least: Hero, CTA strip, About section
 5. **YouTube videos MUST use facade pattern** — thumbnail + click-to-load (not direct iframe) for Core Web Vitals
 6. **All forms MUST have proper Zod validation** with error messages per field
 7. **API routes MUST use service key** (not anon key) for Supabase writes
 8. **ChatBot must be fully functional** — all flows coded in `(chatbotFlows.ts)`, navigation works
 9. **Loading screen must appear on first page load only** (sessionStorage flag)
 10. **All treatment pages MUST be statically generated** `((generateStaticParams))`
 11. `(RESEND_API_KEY)` and `(SUPABASE_SERVICE_KEY)` must **NEVER** appear in client-side code — only in API routes (server-side)
 12. **Mobile navigation must be a full-screen overlay**, not a tiny dropdown
 13. **Appointment form must show real-time validation** (errors on blur, not just on submit)
 14. **All external links** (WhatsApp, Maps, social): `(target="_blank" rel="noopener norereferrer")`
-

✅ FINAL CHECKLIST (verify before delivering)

- ☐ `npm run build` passes with zero errors
- ☐ `npm run lint` passes clean
- ☐ All 11 pages render correctly
- ☐ Appointment form submits → Supabase row created → admin email sent
- ☐ Contact form submits → Supabase row created → admin email sent
- ☐ Chatbot all flows work including page navigation
- ☐ Loading screen shows on first load, doesn't repeat
- ☐ Floating globules visible on hero and CTA sections
- ☐ Treatment detail pages all pre-rendered
- ☐ Blog post pages all pre-rendered
- ☐ Sitemap generated at `/sitemap.xml`
- ☐ `robots.txt` generated
- ☐ OG tags correct on all pages
- ☐ JSON-LD structured data in `<head>`
- ☐ WhatsApp floating button works
- ☐ Cookie consent banner shows and dismisses
- ☐ `vercel.json` correctly configured
- ☐ `.env.example` contains all required keys (no real values)
- ☐ Fully responsive at 375px, 768px, 1024px, 1440px
- ☐ No horizontal scroll on any screen size
- ☐ All images use Next.js `<Image />` component
